Where Levels 1 and 2 show up

The evidence for the supporting levels, and the question "where's Level 2?"

> **AFTER THIS LESSON**
> You can point to concrete Level 1 and Level 2 evidence in the demo.

What the levels require

Level 1: specialized agents with distinct capabilities collaborate on a task. **Level 2:** agents find collaborators by capability, respond to at least one unexpected failure or change, and explain why each was chosen. We claim Level 3 and show these two as supporting evidence.

Source: the Cisco challenge statement.

Level 1 in HarvestNet

Inside each organization, specialists feed the negotiator. A food bank has demand, storage, hours, truck, and distribution specialists. A donor has inventory, condition, deadline, and drop-off specialists. The negotiator has to weigh findings that conflict. For example, its storage specialist reports space for 200 lb, but its distribution specialist reports that only 120 lb can go out before it spoils.

Level 2 in HarvestNet

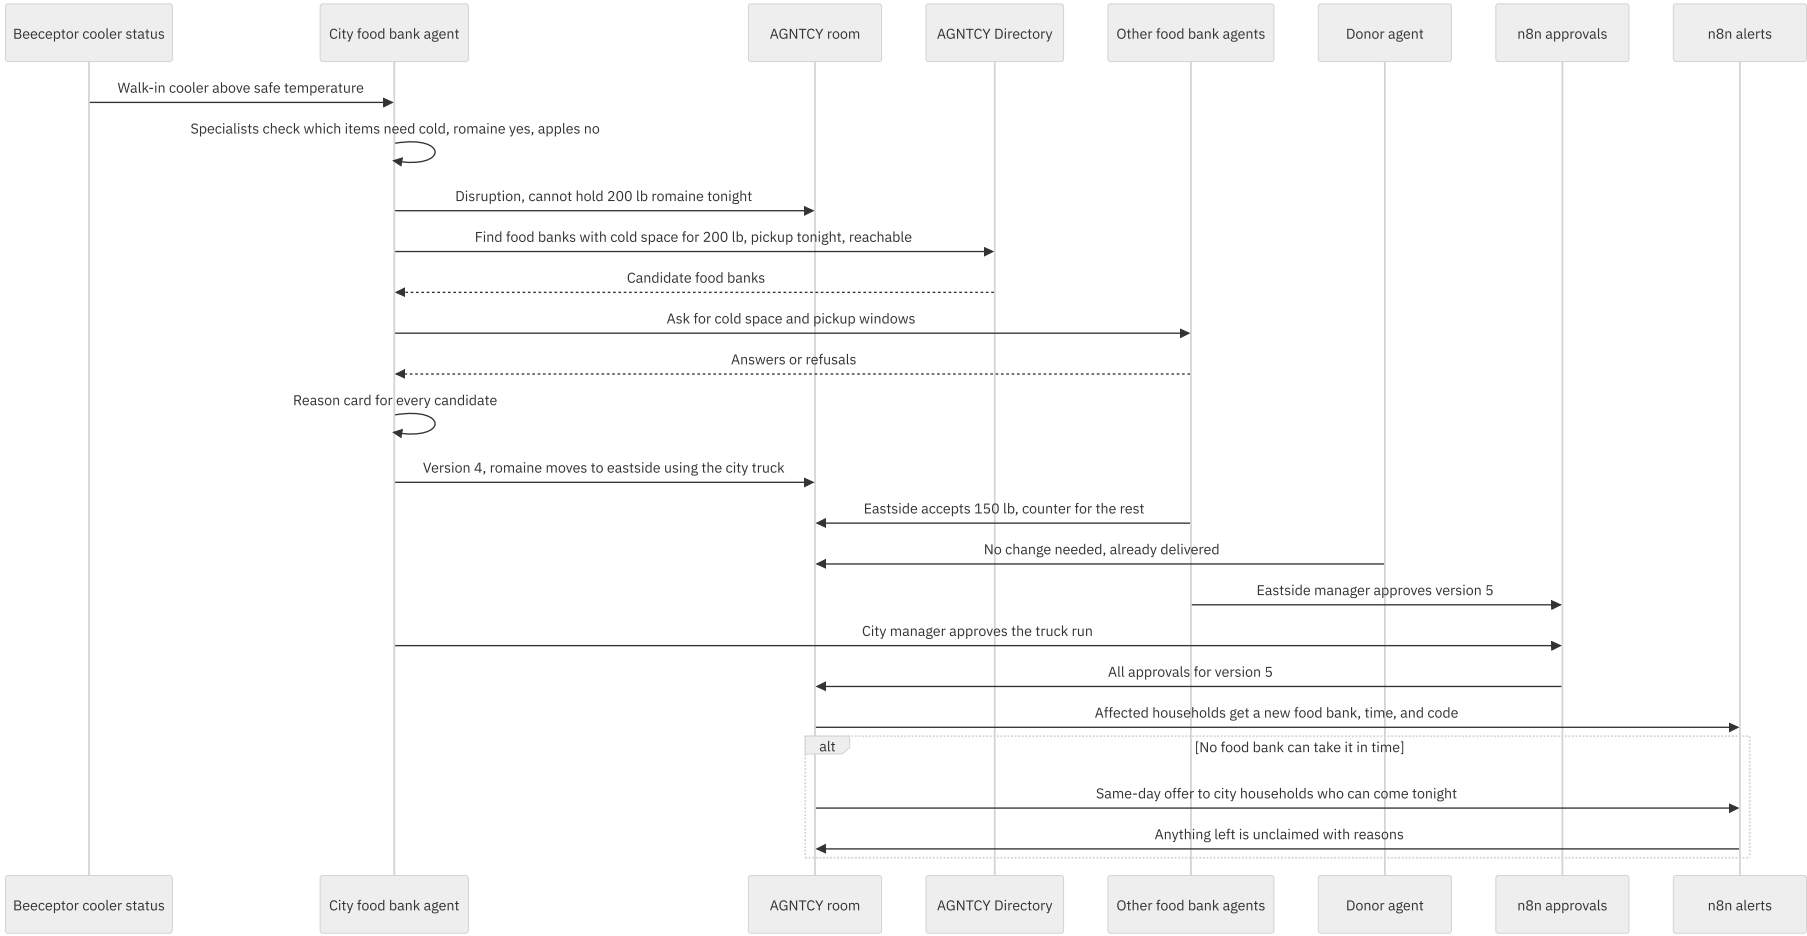

The city food bank's cooler fails. Its agent:

- searches the AGNTCY Directory for food banks with cold space
- asks each candidate about its availability
- writes a **reason card for every candidate**, including the ones it rejects

Example reason card: *"Rural food bank: has cold space, but pickup ends at 6 pm, so its households can't collect romaine tonight. Not chosen."*

The produce profile decides what has to move: romaine needs cold, but apples and potatoes can stay where they are.

> Diagram on the next page (landscape): Level 2 in action: the cooler fails, the Directory finds other food banks, and every candidate gets a reason card. From docs/MVP_DESIGN.md.

Beeceptor cooler status
City food bank agent
AGNTCY room
AGNTCY Directory
Other food bank agents
Donor agent
n8n approvals
n8n alerts
Walk-in cooler above safe temperature
Specialists check which items need cold, romaine yes, apples no
Disruption, cannot hold 200 lb romaine tonight
Find food banks with cold space for 200 lb, pickup tonight, reachable
Candidate food banks
Ask for cold space and pickup windows
Answers or refusals
Reason card for every candidate
Version 4, romaine moves to eastside using the city truck
Eastside accepts 150 lb, counter for the rest
No change needed, already delivered
Eastside manager approves version 5
City manager approves the truck run
All approvals for version 5
Affected households get a new food bank, time, and code
alt
[No food bank can take it in time]
Same-day offer to city households who can come tonight
Anything left is unclaimed with reasons
Beeceptor cooler status
City food bank agent
AGNTCY room
AGNTCY Directory
Other food bank agents
Donor agent
n8n approvals
n8n alerts

The hard question

"Where's your Level 2?"

When a food bank's cooler fails, its agent finds a replacement by capability through the Directory, explains every candidate with a reason card, and re-runs approvals. Only the items that actually need cold get moved.
